FS150 LF can be used as a perimeter, intermediate piece and as an inside corner piece for 1" square profile installations. FS150 LF offers better structural support, for lighter fabrics. Available in a range of colors. Pantone Match Color Available. (Lead times & minimum quantities apply)

This Track is perfect for use with our Fabric Wall Finishing System. Combined with our ReCore® Backing and Fabric, this track can be used to create anything from full-wall photographic murals to smaller acoustic or bulletin-board panels as well as Wainscoting and other types of Wall-Protection.

**Feature Description**
- One-Inch Track is ideal for acoustic applications, offering excellent sound absorbency, tackability and wall-protection.
- The square profile produces clean, crisp joints and edges.
- Front loading track can be placed up against almost any surface including walls, door moldings, etc.
- Can be used as both a perimeter and intermediate (mid-wall) track with any 1 inch substrate.
- Built with better structural support for lighter fabrics
